Paint vs. Weather Endurance

The paint that is fit to put on a house (your home) should be of sufficient quality to withstand the extremes and most severe weather—This is possible only by using paint which is made by scientific paintmakers who know what materials when used together will produce a covering which will keep out the destructive forces of nature, such as rain, snow, frost, dew, heat from the sun. These forces will destroy (decay) bare wood or wood poorly painted.

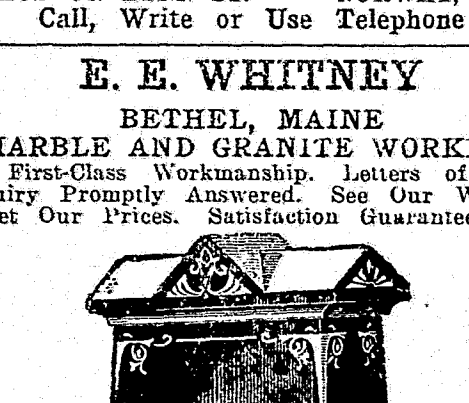

Our Paint Booklet will tell you more about this important subject—telephone or call for a copy.

There is more Catarrh in this section of
the country than all other diseases put to-
gether and for years it was supposed to be in-
curable. Doctors prescribed local remedies,
and by constant failure to cure with local
treatment, pronounced it incurable. Catarrh
is a local disease, greatly influenced by con-
stitutional conditions and therefore requires
constitutional treatment. Hall's Catarrh Medi-
cine, manufactured by J. Cheney & Co.,

it taken internally and acts thru the blood on
the mucous surface of the system. One hun-

Snow, snow, beautiful snow, from whence did you come And when will you go?
You did not come early, But when you did forth, You filled up our door-yards, From the south to the north. We hope you will not hasten, But go at your leisure.
For there's many logs in old Crooked River, And if there should come a big freshet, they say You'd carry the logs and the bridges away.

Now Joe runs a mill At the action, or lower, And you took the roof Right down to the floor. You've done lots of bad tricks, At George Packard's store. You made the roof leak At George Packard's store.

You have interfered badly With Uncle Sam's mail, You caused a big slide On the Maine Central rail. To Commissioner Hilton You've caused much trouble, All over town, to find men to shovel. You made him work so hard himself, That now he's laid upon the shelf.

So just stop and see, The damage you've done, And travel the rest of the way By the sun.
We hope you will leave us and not come again, 'Til nearly Thanksgiving day, and then The President will come and spend the day, Who live over the hills, and far away.

BRIDGTON ACADEMY

Tuesday evening, March 16th, the large auditorium of the Academy Hall at Bridgton Academy was the scene of the annual Brown Prize Declamations. The hall was nearly filled by friends and parents of the contestants and the alumni of the school. These prizes, which were made by E. M. Brown to promote the worthy and excellent practice of declaiming before the public, were awarded as follows: first prize for boys, Roger Libby, Portland; first prize for girls, Lillian Johnson, North Bridgton; second prize to either boy or girl to Mary Buck, Portland. These prizes consist of \$10.00 for first prize and \$5.00 for second prize. Roger Libby has not only excelled in this line of school activities this year but he was captain of the football team and has played a strong game of basketball the entire season, as left guard. The speaking this year was of high quality and each candidate showed a great deal of careful preparation.

The judges on March 16th were Mrs. Perley Freeman of Harrison, Mrs. Mel Blake from North Bridgton and Mr. Blake from Boston, Mass. Music was furnished by the school orchestra, and male and mixed quartettes, under the supervision of Mrs. Scribner, music instructor in the school. Besides these prizes for excellence in declaiming Mr. Brown left other equally fine donations to be given for Junior debates and Sophomore essays at commencement time.

On Friday the track team of Bridgton Academy left on a three day trip to Brunswick where they were to compete in the interscholastic meet of Saturday. The men making the trip were Wentworth Walker, Milliken, Abbott, Libby, and Saunders.

A schedule of twelve games is being arranged for the baseball season, which opens at the beginning of the Spring term as follows:

Saturday, May 8, Fryeburg Academy at Fryeburg.
Wednesday, May 12, Norway High School at Norway.
Saturday, May 15, South Paris at South Paris.
Wednesday, May 19, Norway at North Bridgton.
Saturday, May 22, Cornish High at Cornish.
Wednesday, May 26, Cornish High at North Bridgton.
Saturday, May 29, Fryeburg Academy at North Bridgton.
Monday, May 31, Standish at Sebago Lake (2 games).
Saturday, June 5, South Paris at North Bridgton.
Wednesday, June 10, Commencement game at Albion.

Negotiations are being made with the Bowdoin Second Team for a game to be played at North Bridgton. The outlook for a fast team is brilliant although the material for a battery is not of gilt edge at present but there is hope that some of the class horse will come forth and equal Harry Lord a player for it was on the same diamond that Harry got his early training.

The class parts for commencement have been assigned as follows: valedictory, Raymond J. Saunders, North Waterford; Latin oration, Hiram W. Seavey, Norway; Class history, Lillian Pingree, North Bridgton; Class oration, Winfred Hibbard, Harrison.

An exceptionally large delegation of Alumni are planning to return to their Alma Mater this year, upon the one hundred and eleventh anniversary of the Academy which was founded eleven years before Maine became a State in the Union.

The first edition of this year's Stranger will be ready for distribution this week. School closes March 26th for the Easter vacation.

OXFORD

"Kittery and Portsmouth"
Outside of the nearby towns and ci-
ties, Oxford and Otisfield, it is believed,
sent more workers in proportion to their
population to the ship yards of Ports-
mouth than any others in Maine or New
Hampshire.

The Portsmouth Navy Yard is located
on an island seven-eighths miles long by
three-fifths mile wide, in the Piscataqua
River, between Portsmouth and Kittery,
the main channel being on the New
Hampshire side of the island. The yard
is known as the Portsmouth, N. H. Navy
Yard on account of its postal system,
being connected by mail through the
Portsmouth postoffice, but comes under
the civil jurisdiction of Maine.

The yard has nearly nine miles rail
road track, two locomotives, about twelve
miles of roadway, 185 buildings, the
larger of which are the foundry and
shop 425 feet long; new machine
shop 275 feet by 250 feet; submarine
building 150 feet wide by 325 feet deep.
The maximum number of employees on
the yard during the war was as follows:
Officers, 75; civil employees, 5600, be-
sides 2500 prisoners, making a total of
8,370 (above figures are approximate).
She is the manufacturing and distribut-
ing station for all electrical material for
the Navy of the East Coast. Also man-
ufacturing furniture, blocks, boilers, etc.,
for the Navy and is the only Navy Yard
on the East coast manufacturing sub-
marines. In fact the yard was found
to be a very efficient and complete aux-
iliary. Of all her departments there are
scarcely any but have had the names of
some of Oxford's and Otisfield's people
on the pay roll.

Former residents of Oxford and Otis-
field who are now living in Kittery and
Portsmouth, N. H. are vicinity Fran-
cette Burns; Mr. and Mrs. H. S. Den-
ning; Mr. and Mrs. E. Stow and son,

"I have been sick almost two years
had four doctors with little or no relief.
Some of the doctors said I had enlarged
liver, nervous digestion, too much acid
my system. I was so tired in the morn-

thin every day, went from 135 to 111.
"I was so discouraged I didn't know
what to do. One night about three weeks
ago, I picked up a paper and saw you
Dr. True's Elixir, Family Laxative and
Worm Expeller, advertised. I made up
my mind I had worms and the next day
bought a small bottle of Dr. True's Eli-

had taken the bottle.
"I was surprised at the result. I
worms, some a finger long, so much slim-

the skin of worms. The day before I took
Dr. True's Elixir I thought I should
wild with the crawling in my stomach.
I could feel them. My stomach was so

GREENWOOD CITY

Golden Wedding

A reception was given Monday evening, March 22d, at the home of Mr. and Mrs. Charles E. Swan of Riverton in honor of the golden wedding anniversary of Mrs. Swan's father and mother, Mr. and Mrs. Sylvester Cole.

Lightly relatives and friends were present and music and games were enjoyed by all until a late hour. Refreshments of ice cream, wedding cake and fancy crackers were served.

Mr. and Mrs. Cole were the recipients of many nice gifts including gold, silver, linen, etc. The groom, son of Elbridge Cole, was born in Greenwood, April 22d, 1871. Mrs. Tucker was the daughter of George Washington Tucker and was born in Lee, Dec. 10th, 1853.

Mr. and Mrs. Cole have lived the greater part of their lives in Greenwood, except about three years spent in Rochester, N. H., where Mr. Cole held the charge of the Portland and Rochester R. R. station. Four children were born to them: Fred J., born in 1872, Birdie R., born 1874, Stillman R., born 1877, and Elvira E., born 1880. They are all living except Stillman R., who died in Bridgeport, Conn., in 1917.

Mr. and Mrs. Cole are remarkably youthful for a couple boasting of nineteen living grandchildren and five great grandchildren. Four generations were represented at their golden wedding reception.

They have been members of the Methodist church for many years; Mr. Cole has held an exhorter's license for twenty-four years and has been very active in church work in his community.

In 1919 he sold his farm in Greenwood and purchased another in Falmouth, where they will move this Spring after spending the winter months with their daughter, Mrs. Charles E. Swan, at Riverton.

Relatives and friends wish this genial couple many more years of wedded life.

Golden Wedding

Father mine, spruce up a bit, Get on your Sunday toes, dear, And love Mother for awhile. Fifty years of wedded life, Think of your many blessings. Since Mother became your wife. Fifty years seems but yesterday. When over the hills you ride, Through the drifts of Greenwood hills, To get Mother for your bride. Shy and sweet with rosy cheeks, Of all the girls in my mind, Of all the girls in Greenwood, Of all the girls you could you find. How happy you was that day, Daddy. Not even the snow and ice could pile, When your horse could go no further. You got out and shoveled awhile. She has not lost her charm, Daddy. But grows sweeter every day. Although her steps are not so light And her hair is streaked with gray. You will always find her ready With a smile as sweet as of old. Ready to cheer, comfort and bless you, As onward through life you go. So this day of all days, Give all care and sorrow away. Think only of your blessings On this Golden Wedding Day. MRS. E. E. MAXFIELD.

RESOLUTIONS OF RESPECT

Whereas, the Great Commander of us all has summoned to his fold of water activity, our sister Ella C. Elliott, and she has passed from earth's sorrows and cares to a sinless, sorrowless world;

Resolved, that we cherish the memory of her interest and zeal for our order, and we miss her cheery presence from our meetings, but we know that our loss is her gain, and we bow to the will of our loving Heavenly Father. There is no death, what seems so is transition. This mortal breath is but the suburb of the life elysian.

Whose portals we call death.

Resolved, that we extend our loving sympathy to the family and relatives of our sister in this affliction.

Resolved, that these Resolutions be spread upon our records, a copy sent to the family of our sister, and a copy to the Norway Advertiser for publication and that our charter be draped in mourning thirty days.

Paint and Varnish

Spring is here and also cleaning and painting comes with it. You will need paint and varnish to make everything look nice and clean. But you must have good paint and varnish to do it.

We sell Bay State Paint for buildings, inside and outside, for barns, outbuildings, roofs, etc. This is a No. 1 grade of Paint made from the best of materials. (Proportions adjusted by experience and scientific adaptation to New England conditions). Bay State Paint will cover about twenty-five percent more than ordinary paint mixed by hand.

Chi-namel Varnishes are the Quality Finish for everything in the home. One test of Chi-namel Finishes upon your floors, woodwork or furniture will confirm their sheer merit, which has earned their enormous sale at home and abroad since their introduction fifteen years ago. They are the easiest for amateur or professional painters to apply, because they are self-leveling, hence leave no laps or brush marks. Chi-namel Varnishes never chip, crack or show white scratches and never show heel marks. Chi-namel is the easiest compound to do graining with on the market.

These Paints and Varnishes are sold by
